Omer-

You are the lucky one acting this week! We will need to follow-up on this. As you may know, DTSC has the lead on this for permitting and we do not in Waste currently have active involvement at the site (nor does enforcement as I recall). However, the Air program may have more recent engagement. From the RCRA perspective, it wouldn't make sense for Jared to be involved at the hearing. Can you work with Air and Enforcement to get something together for the 18th floor?

Thanks!
